

**AMENDMENTS TO THE CLAIMS**

**This listing of claims will replace all prior versions and listings of claims in the application:**

**LISTING OF CLAIMS:**

1. (currently amended): A rubber composition containing comprising:  
a mixed filler of comprising carbon black and silica;  
~~characterized in that a resin is compounded in an amount of not less than 4 parts by weight based on 100 parts by weight of~~ a rubber component containing comprising not less than 40% by weight of butadiene rubber and styrene-butadiene copolymer rubber; and  
a resin,  
wherein the resin is compounded in the rubber component in an amount of 4-10 parts by weight based on 100 parts by weight of the rubber component.
2. (original): A rubber composition according to claim I, wherein an amount of the butadiene rubber in the rubber component is not more than 60% by weight.
3. (original): A rubber composition according to claim 1, wherein the styrene-butadiene copolymer rubber has a bound styrene content of not more than 40% by weight.
4. (original): A rubber composition according to claim 1, wherein an amount of the styrene-butadiene copolymer rubber in the rubber component is 40 to 60% by weight.

**AMENDMENT UNDER 37 C.F.R. § 1.111**

U.S. Application No. 10/046,205

**Q68085**

5. (canceled).

6. (original): A rubber composition according to claim 1, wherein a compounding ratio of carbon black to silica in the mixed filler is 45/20 to 30/35.

7. (original): A rubber composition according to claim 1, wherein a thiuram based vulcanization accelerator is further compounded in an amount of not less than 0.5 part by weight based on 100 parts by weight of the rubber component.

8. (original): A rubber composition according to claim 7, wherein the amount of the thiuram based vulcanization accelerator compounded is not more than 3.0 parts by weight of the rubber component.

9. (original): A pneumatic tire comprising a tread portion made from a rubber composition as claimed in any one of claims 1 to 8.
